MSc Complementary & Integrated Health Sciences

What kind of health are we aiming for?

Working across the disciplines, working for a voice in the health system

Your qualification

- **graduate (Bac or +) in a health-related training programme**, or equivalent in the areas of medicine, therapy, counselling, social science, public health, research or teaching
- **training in CAM** or complementary health care, a psychosocial or scientific field
- **aptitude for interdisciplinary and inter-hierarchical networking** in students' groups and in the health care sector
- **willingness to engage in intensive self-awareness and communication processes**
- **interest in further personal and professional qualification**

Your interests

- **an interdisciplinary language for CAM**, including biology, psychology, sociology ...
- **quality assurance through**
 - **knowledge of health matters** – conventional and complementary, individual and social: **what promotes health?**
 - **communication skills** – with continuous work in small groups with an emphasis on depth psychology (Balint): **healing comes about through relationship**
 - **understanding CAM from its physiological background (e.g. cybernetics) and its paradigms (e.g. similarity)**
 - **a survey of CAM including research results, and an orientation** in the jungle of therapies – with continuous work in small groups on presentation, reflection and supervision of the participants' interdisciplinary background
 - **understanding CAM from its intercultural and epistemological background**
 - **knowledge of working and writing scientifically** – both according to conventional and CAM criteria
- **psychohygienics and stress relief** for yourself and in your environment
- **teamwork** in the healthcare sector, teamwork as a research fellow of the inter-uni.net

Your investment

- depending on the campus you choose, € 1.650.- to € 3.000 per term over 5-6 terms. This covers all obligatory study material such as high quality digital correspondence lessons, books, files
- four seminars per year, weekly Internet contact
